
Typical resolutions in arcsec (high-res, low-res uv weightings):

| | |
|------------------------|------|
| B configuration L-band | 3, 6 |
|------------------------|------|

| | |
|------------------------|------|
| C configuration C-band | 3, 6 |
|------------------------|------|

| | |
|------------------------|--------|
| C configuration L-band | 10, 15 |
|------------------------|--------|

| | |
|------------------------|--------|
| D configuration C-band | 10, 15 |
|------------------------|--------|

| | |
|------------------------|--------|
| D configuration L-band | 35, 45 |
|------------------------|--------|

| | | |
|--|---------------------|---------|
| Approx. rms range (all configurations and bands) | 3→ 95 μ Jy/beam | [3,5,6] |
|--|---------------------|---------|
